WHAT YOU'LL LEARN

The Computer Information Systems program prepares students to design and build computer software using a variety of programming languages and design concepts for both stand- alone and networked computers, and web-based environments. Languages taught include: C++, C#.NET, ASP, JavaScript, PHP, Python and more.

WHAT'S REQUIRED

The Computer Information Systems Associate Degree program is:
- A 2 year program
- 67 Credit Hours
- Available both IN-PERSON or ONLINE

The related Computer Information Technology Certificate programs are:
- 1 year programs
- Between 30 and 35 credit hours

WHERE YOU'LL WORK

Graduates of this program can expect to work as:
- Computer Operators
- Computer Programmers
- Computer Systems Analysts
- Database Administrations
- Software Application Developers
- Software Developers
- Web Developers

in any industry that relies on computer technology, including banking, medical, logistics, communications, and more.

WHAT YOU'LL EARN

Median Wages:
Computer Programmer: $79,530
Computer Systems Analyst: $85,800
Database Administrator: $81,710
Software Applications Developer: $86,086
Web Developer: $70,660
